## PROFESSIONAL SUMMARY

Full-Stack Developer with 1.5 years of hands-on experience building scalable web applications, EdTech platforms, student dashboards, and responsive websites. Skilled in Next.js, React.js, Node.js, Express.js, MongoDB, Tailwind CSS, and VPS deployment. Proven ability to take projects from UI/UX design to complete production deployment independently.

## WORK EXPERIENCE

### Full-Stack Developer

[ May 2024 – June 2025 ]

Meritroot Pvt Ltd (EdTech – JEE/NEET Academic Platform)

Sudhowala, Premnagar, Dehradun, Uttarakhand

- Designed and developed the complete Meritroot web platform from scratch, including student dashboard, course enrollment system, payment gateway, and admin panel for JEE & NEET preparation courses.
- Built responsive, pixel-perfect UI/UX using Next.js, React.js, Tailwind CSS, and created high-fidelity prototypes and design systems in Figma.
- Developed robust backend services using Node.js, Express.js, MongoDB, and RESTful APIs for user authentication, course management, and payment processing.
- Implemented role-based access control (Admin & Student) with secure JWT authentication and protected routes.
- Single-handedly deployed and maintained the full application on Hostinger VPS (Linux + Nginx), handling server setup, SSL, domain configuration, and live production environment.
- Created landing pages, marketing websites, and student portals with dynamic pricing and online/offline/residential course selection themes.

### Freelance Developer & Designer

[ September 2025 – Present ]

Traffiqon.com – Development Project

- Developed the complete frontend for Traffiqon.com, a digital marketing services website.
- Built fully responsive Home, About, Services, and Contact pages using HTML, Tailwind CSS, and JavaScript.
- Implemented modern UI/UX components, smooth animations, and mobile-first layouts.
- Deployed the website on Hostinger, configuring hosting, domain, and project structure.
- Live Link: [traffiqon.com](https://traffiqon.com)

Graphic & Video Content Creation – TheSunYTTC Rishikesh Yoga School

- Created Instagram posters and social media graphics using Figma and Canva.
- Produced and edited short-form videos and promotional reels using VN and DaVinci Resolve.
- Published and managed blog posts on the school's WordPress website.

## SKILLS

- Languages & Frameworks:** JavaScript, PHP, React.js, Next.js, Node.js, Express.js
- Styling & Design:** HTML5, CSS3, Tailwind CSS, Figma, Canva
- Databases:** MongoDB, MySQL
- Tools & Platforms:** Git/GitHub, RESTful APIs, VPS (Hostinger), Linux Server Management

## PROJECT WORK

### Meritroot Web Portal

Link: <https://meritroot.com/>

- Built full-stack EdTech platform using Next.js (App Router + SSR), Node.js, Express, MongoDB, Tailwind.
- Features: dynamic course & grade selection, theme change, OTP signup, HDFC payment, dashboard, quizzes, mock tests, and progress tracking.
- Designed complete UI/UX in Figma and developed entire frontend + backend from scratch.
- Added animated landing pages and optimized SSR for fast performance.
- Deployed & managed production on Hostinger VPS.

### AimLearno Exam Portal

Link: <https://testaimlearno.gt.tc/>

- Developed responsive LMS using HTML5, Tailwind CSS, JS, PHP, MySQL.
- Features: practice questions, formulas, hints, timed mock tests with instant results, guest mode, full access after login.
- Created tutor booking system and full admin panel for question/content management.
- Designed clean, mobile-first UI with modern Tailwind components.
